I've been an improviser since I was 11, which has helped me build a rewarding voiceover career. Highlights include TV campaigns for Subaru, United Health, REI and H&R Block; being the corporate voice of Sunbelt Rentals; voicing Scarlett Johansson's Black Widow for the *Iron Man* video game; and Siri, in Ellen's iPhone, on the *Ellen DeGeneres Show*. Some favorite on-camera roles have been a foul-mouthed cancer patient on *Weeds*; MN Iron Range mom standing up to Charlize Theron in *North Country*, directed by Niki Caro; and nerdy gamer in the short film *Silver*, written by Diablo Cody.
